35th

Scientific Conference

Theme

Together Towards Optimal Nutrition

24-25 November 2020 | GoToWebinar Online Platform

First Announcement & Call for Abstract

CALL FOR ABSTRACTS

You are invited to submit abstracts for presentation in the free paper presentation or poster sessions of the Conference. Abstracts can be in any of the symposia titles or any relevant topic in food and nutrition.

Please note that we are utilising ONLINE ABSTRACT SUBMISSION. Abstracts (200-300 words in MS Word format) must follow exactly the prescribed format.

Details of the Conference will be updated from time to time through the NSM Conference's official website.

To check the acceptance status of your registration or submitted abstract, please log on to the website.

For more information and submission of abstract, please visit the Conference official website:

www.nsmconference.org.my

**Abstract
deadline**

**15
October
2020**

**The official language
of the conference
shall be English.**

About The CONFERENCE

There is ample evidence that the prevalence of non-communicable diseases (NCDs) and their associated risk factors have been increasing in the past decades and now have reached alarming levels. Undernutrition persists among selected groups. Several policies and action plans have been implemented to tackle the double burden of malnutrition in the country, especially the NPANM III (2016-2025). However, there have been challenges in implementing some of the identified strategies, the main ones being lack of inter-sectorial and multi-stakeholder coordination, financial shortfall and lack of human resource capacity.

A whole-of-government approach is crucial as tackling nutrition-related disorders requires the close collaboration of diverse ministries and agencies. In addition, it is essential for various stakeholders including academic institutions, professional bodies and private sectors, to work together to systematically implement the identified strategies and action plans. It is imperative for all stakeholders to form strategic alliances, and pool together all the required resources to combat nutrition-related problems in the country.

The theme of the 35th NSM Annual Scientific Conference underscores the importance of all stakeholders working together to promote optimal nutrition among Malaysians. This conference serves as a platform for all stakeholders to productively exchange and discuss research and intervention activities towards building healthier future generations.

TENTATIVE CONFERENCE PROGRAMME at a glance
